

LOCKS

Model: Wide Bolt Staple

- Staple manufactured from steel with chrome or brass plating
- One blind side, featuring only a single opening for the bolt to pass through
- Intended for situations where a deadbolt from another brand is already installed and the goal is to cover the larger opening left by a previous, oversized staple, or when the installation causes the bolt to protrude behind the staple

MODEL	CODE	WEGHT (g)
Wide chrome staple	AACP0280	380
Wide brass staple	AACP0279	380
